World Scientific Series on Singapore's 50 Years of Nation-Building

50 Years of Science in Singapore

Edited by **B T G Tan** (*NUS, Singapore*), **Hock Lim** (*NUS, Singapore*) & **K K Phua** (*Institute of Advanced Studies, Nanyang Technological University*)

Description:

As part of the commemorative book series on Singapore's 50 years o f nation-building, this important compendium traces the history and development of the various sectors of Singapore science in the last 50 years or so. The book covers the government agencies responsible for science funding and research policy, the academic institutions and departments who have been in the forefront of the development of the nation's scientific manpower and research, the research centres and institutes which have been breaking new ground in both basic and applied science research, science museums and education, and the academic and professional institutions which the scientific community has set up to enable Singapore scientists to serve the nation more effectively.

Each article is chronicled by eminent authors who have played important roles and made significant contributions in shaping today's achievement of science in Singapore.

Professionals, academics, students and the general public will find this volume a useful reference material and an inspirational easy read.

Editors:

B T G Tan attended the University of Singapore (Bachelor of Science with Honours in Physics, 1965) and Oxford University (Doctor of Philosophy in Engineering Science, 1968). He joined the then University of Singapore (now NUS, the National University of Singapore) in 1968, where he has served as Dean of Science, Head of Physics and Dean of Students.

Lim Hock is an Honours graduate of the Physics Department, NUS and received his PhD in meteorology from the University of Reading, England. He was Founding Director of both the Centre for Remote Imaging, Sensing and Processing and the Temasek Laboratories at NUS. He is currently the Founding Director of the Singapore Nuclear Research and Safety Institute (SNRSI) and Director of Research Governance and Enablement at NUS.

Phua Kok Khoo obtained his PhD in Mathematical Physics from the University of Birmingham in 1970. He was awarded the Institute of Physics Singapore (IPS) President's Award by the IPS Council in 2006. He is a Fellow at the American Physical Society, the Founding Director of the Institute of Advanced Studies at Nanyang Technological University, an Adjunct Professor at the National University of Singapore, and Honorary Professor in many universities in China. He is also Chairman of World Scientific Publishing Company.

Pub Date: Jan 2017
Binding: Hardcover
ISBN: 978-981-3140-88-2
Price: £70
Binding: Softcover
ISBN: 978-981-3140-89-9
Price: £29
Page Extent: 550pp
Type: Popular Book
Main Subject: General
Sub-subjects: General Interest
BIC: PD
BISAC: SCI000000; SCI055000 ; MAT000000
Keywords: Physics; Maths; Chemistry; Computer Science; Biological Science; Education; Science Faculty; Pharmacy; TMSI; IMCB; NUSNNI; IMS; SSLS; CRISP; ISS; CQT
Imprint: World Scientific Publishing Company
Readership: Researchers, professionals, academics, and laymen interested in all aspects of science.

Contents:

- ***Preface***
- ***About the Contributors***
- ***Science Policy and Funding Bodies:***
  - Science in Singapore — Memories of the '60s and '70s
  - R&D in Singapore — The Early Years of NSTB
  - Science, Technology and Open Innovation — The A*STAR Journey
  - National Research Foundation
- ***Academic Faculties and Departments:***
  - The Faculty of Science, NUS — A Brief History
  - Department of Mathematics at Nanyang University (1956–1980)
  - 50 Years of Mathematics in Singapore: A Personal Perspective
  - Physics at NUS
  - Department of Chemistry: A Historical Review
  - Department of Botany: Achievements and Progress Through the Years
  - Department of Zoology: Past, Present and Future
  - Department of Biological Sciences
  - Pharmacy and Pharmacy Education (1965–2015)
  - The School of Computing
  - A New Garden of Science in Singapore: Science at Nanyang Technological University
  - The Institute of Advanced Studies at Nanyang Technological University: Ten Years of Achievement
- ***Research Centres and Institutes:***
  - Institute of Mathematical Sciences (IMS)
  - The Singapore Synchrotron Light Source (SSLS) — A Personal Account of its Founding
  - CRISP — The Centre for Remote Imaging, Sensing and Processing
  - The NUS Nanoscience and Nanotechnology Initiative (NUSNNI)
  - Two Decades of Quantum Information in Singapore
  - 2D Materials
  - Development and Progress of Marine Biology in the Last 50 Years
  - Tropical Marine Science Institute
  - The Mechanobiology Institute— Defining a New Field of Science
- ***Education and Museums:***
  - Mathematics Education in Singapore (1965–2015)
  - The Formation and Transformation of Science Centre Singapore
  - The Lee Kong Chian Natural History Museum
- ***Professional and Academic Societies:***
  - The Scientific Society Movement in Singapore
- ***Epilogue — The Next 50 Years of Science in Singapore***
- ***Index***
